

SUPPLY CHAIN MANAGEMENT

KEY ELEMENT TO PERFORMANCE EXCELLENCE

Critical to advancing customer missions is the provision of strategic forward supply chain and logistics support. Arcfield is the sole contractor managing the Avionics and Propulsion Group supply chains for the RCAF CF-18 aircraft, providing excellence in supply chain management in support of the classic fighter fleet.

Prestigiously, Arcfield was the first commercial organization to achieve the Acceptable Materiel Support Organization accreditation in Canada under the Department of National Defence (DND)/ Canadian Armed Force's (CAF) Technical Airworthiness Program. Our certified procurement process and qualified base of over 300 suppliers ensures that all material we procure for the RCAF meets all essential requirements of airworthiness.

CAPABILITY HIGHLIGHTS:

- Sole supply chain management provider for CF-18 fleet
- Largest allocation of GOM under Arcfield care, custody, and control
- Allocation of GOM in Canada is 10x greater than the next largest
- 94,000 unique line items managed
- Inventory error rate less than 0.00001%
- Operation of 76,000 sq ft of warehousing space
- DND/CAF Acceptable Materiel Support Organization (AMSO)

LEADERS IN SUPPLY CHAIN MANAGEMENT

DND's trust in Arcfield's excellence in supply chain management is further emphasized by the largest allocation of Government owned materiel (GOM) that is under its care, custody, and control. This allocation of GOM is significant being approximately 10x greater in magnitude than the next largest allocation in Canada. With an industry inventory error rate typically less than 5%, Arcfield has an impressive track record with an error rate of less than 0.00001%. Arcfield ships over 250 shipments annually which is notable as military equipment requires special consideration due to the International Traffic in Arms Regulations (ITAR).

With 76,000 square feet of dedicated warehouse space to support supply chain management activities, SECRET cleared facilities, and materiel inspection packing, handling, and preservation processes in place, Arcfield is the contractor of choice to support your most critical missions.

ARCFIELD

ABOUT ARCFIELD

Arcfield Canada Corp. supports innovative next-generation cooperative military advancement to the defence and aerospace industry. As a trusted partner to Canada's defence community, Arcfield supplies world-class mission sustainment solutions through its In-Service Support and Integrated Logistics Support capabilities. For more than 35 years, Arcfield has been a dedicated partner to the Canadian Armed Forces and is Canada's only prime contractor for the sustainment of avionics systems, electronic warfare, and automated test equipment on a fighter platform. Headquartered in Chantilly, VA the company employs 1,200 people across the U.S. and Canada.
